

Seventy Ladies Attend U.F.W.A. Conference

The UPWA of the Battle River Constituency held their Summer Conference at the lovely farm home of Mr. and Mrs. H. B. Spencer, south of Edgerton on June 27, under the chairmanship of their new director Mrs. R. S. Murray. There were approximately seventy ladies present representing locals from Rosemary, McCafferty, Sunnyvale, Browning, Leath, Dole, and Pelican and several interested visitors.

In her opening remarks, Mrs. Murray asked that all locals send their full quota of delegates to the Conventions, especially from among their younger members, as it is a valuable educational experience and creates a deeper interest in the work of the organization.

It was voted that the joint U.F.W.A.-UPWA Constituency picnic be held at Clear Lake on July 20, with the provision that if weather is unfavorable it be held two weeks later.

Mrs. W. F. Redmond, a past director, was called upon for a brief message.

We had an instructive and inspiring address by Mr. S. O. Hillier, Agricultural Secretary of the Dept. of Extension of the University of Alberta, on "Present Day Problems of Young People". He demonstrated to the mothers their responsibilities in training children to meet life's problems from a very early age. He stressed the importance of cultivating initiative, leadership, and independence in children and teaching them that to reap real enjoyment from life they must "contribute their full share of work, thought, love and interest in other people's lives."

It is a rare privilege to listen to Mr. Hillier. We were disappointed that our President, Mrs. Lowe was unable to come, however Mrs. W. C. Taylor, former director and now 2nd Vice President, spoke in her place. She threw out challenge after challenge in the form of problems our organization must attack and solve. Her battle-cry is "Action in the Present and Future—rest on the Laurels of the Past!"

We were favored with a brief talk by Miss Hope Spencer on the National Convention of Farm Women which she attended recently in Toronto. Dr. Service, Director of the Cereals Chemistry Division of the Dept. of Agriculture, University of Saskatchewan, gave an interesting talk about his work in developing and testing new varieties of wheat.

Both Dr. Spencer and his sister were home on their vacation. Mrs. M. Bell was elected as Conference secretary-treasurer for next year. Mrs. Murray explained that due to pressure of home duties, had made poor telephone service, and did not feel she could do justice to her responsibilities as director, and subject to approval by Central Office, Mrs. W. Warnock of Sunnyvale Local was elected as director.

The following resolutions were passed by the Conference:

1. Be it resolved that June 21, Farmers' Holiday, be declared a school holiday. Amendment—If June 21 is not declared a school holiday, we suggest the third Saturday in June for our Farmers' Holiday.
2. That we again urge the Provincial Government to stand at least

Canadian Certified Seed Potatoes World Famous

Production of Canadian certified seed potatoes reached a new peak during the past year, amounting to nearly 10,000,000 bushels. Shipments of 3,248,000 bushels, valued at \$5,269,922, were made in 1946. Nineteen countries imported our seed potatoes and while the largest proportion went to the United States, substantial quantities were also exported to Cuba, Argentina, Uruguay, Venezuela and British South Africa, in the order named. Heavy purchases of table stock have been made this spring by the United Kingdom, loadings for this destination at St. John and Halifax being supplemented by a number of large consignments shipped recently from Montreal.

Exports of Canadian potatoes are being promoted by the film "Certified for Seed", produced by the Canadian Government to illustrate our high standards and quality. English, Spanish and Portuguese copies are being shown in many countries of the world by Canadian trade commissioners, and this up-to-date method of trade promotion is already producing results.

ANNOUNCEMENT

Mr. and Mrs. W. S. White of Greenfield announce the engagement of their eldest daughter, June Margaret to William David Hughes of Wetaskiwin. The wedding to take place on Monday, July 21, at 2 p.m. at Wainwright United Church.

A dripping faucet will eventually discolor enamel plumbing fixtures so that the stain cannot be removed.

Mount Archibald Named for Agricultural Leader

The man who directs the extension of Canada's northern agricultural frontier has been honored by the Geographic Board of Canada which recently gave his name to this Yukon mountain—Mount Archibald. Shown here are the 8400-foot peak and Dr. E. S. Archibald, Director, Experimental Farms Service, Dominion Department of Agriculture, for whom it was named. An outstanding leader in experimental agriculture Dr. Archibald directs the operation of 27 experimental farms and stations, 13 sub-stations, four laboratories, 105 illustration stations and 52 district experiment sub-stations. In recent years, the Experimental Farms Service has been expanded by the establishment of experimental sub-stations in both the Yukon and Northwest Territories for the study of northern agriculture. Located at Latitude 60° 45' N., Longitude 137° 5' W., Mount Archibald overlooks the experimental station at Mile 1019 on the Alaskan Highway.

Baseball This Week

By Rae Hanson

Wainwright has one more League game to their credit, having taken a decisive 8 to 3 triumph over Edgerton last Thursday night. Battery for Wainwright was Gulekson and Wilbraham. They held the Edgerton team down to three hits and three bases on balls, and had very good support from the team. Edgerton scored two runs in the third, with two hits, three bases on balls and one strike; their third run was scored in the fourth on two errors on our part. (Do be careful of those error boys.) Gulekson really got himself out of a hole in the fifth, when having given out a single and two walks to load the bases, the next batter flied out to Patterson on third, making the third out and retiring the side. Wainwright scored three runs in the second inning on a single, two bunts, a pass and two errors and one run in the third on a single and a bunt. The fifth inning, with two up and two down, proved to be pretty exciting with Johnson, Hume and Lane each barging out a good safe bing (Hume's being a double) and along with a couple of very costly miscues on Edgerton's third baseman, ran the tally up another four marks. Wainwright now has 4 wins, 4 losses and two ties in the League.

We are sorry to report that this was Jerry Harrison's last game with us as he is leaving Wainwright. Good luck, Jerry.

The Wainwright versus Lloydminster game in the Chausin tournament really was a good ball game. While Wainwright lost the game, they certainly put up a good stiff battle. It was tied one all at the end of the first and remained so throughout the whole five innings. Going in to an extra inning, Lloyd managed to get a man in and Wainwright with last but were unable to even it up. The score was 2-1, Battery for Wainwright—Hume and Koch. For Lloyd—McCladery and King.

Be sure to come out to the Fairgrounds for the evening game on July 7th when Edgerton and Wainwright meet once more.

Mr. & Mrs. T. Lane Conservatory Announce "At Home" To Friends Results Of Exams

On the occasion of their 40th Wedding Anniversary on Thursday, June 26th, Mr. and Mrs. T. Lane were "At Home" to friends. Approximately 100 guests called during the afternoon and evening to extend congratulations to the happy couple.

Their residence was nicely decorated with bouquets of multi-colored carnations and spring flowers, and the table was centred with a tiered wedding cake.

Pouring tea in the afternoon were: Mrs. R. A. Snyder, Mrs. P. Patterson, Mrs. W. S. Clark, and Mrs. W. H. Ray. While during the evening Mrs. H. C. Wallace, Mrs. M. Telford, Mrs. A. McKenzie and Mrs. L. W. Smith presided.

Servitors during the afternoon and evening were Mrs. W. P. Lane, Mrs. W. C. Elliott, Mrs. E. B. Graham, Mrs. J. E. Bradley and Mrs. J. D. Wallace.

Mrs. L. Stott and Mrs. G. Reynolds were in charge of the Guest Book. During the afternoon and Mrs. W. White in the evening.

Vets Keen Enlist In New Army

Army Headquarters have announced that more than 6,000 veterans have replied to a personal letter sent out recently by the Adjutant-General, the first Army recruiting appeal since the end of the war.

The replies, which continue to arrive at Army Headquarters in Ottawa at the rate of about 260 daily, indicate that veterans are keenly interested in serving in Canada's new army. Close to 50% of the applicants on the basis of information contained in their wartime documents, are found to be capable of meeting the higher peacetime standards required.

Applicants who appear suitable for enlistment are asked to report to district depots on certain dates for personal interviews and medical examinations before being finally accepted. Army Headquarters pointed out that veterans should try to report on those dates, since particular jobs can only be held open for them for a limited time.

In addition to applications from veterans, many inquiries are arriving daily at Headquarters from young Canadians without previous service. While others are applying direct to district depots for enlistment.

Democracy means rule by the mass of the people. Rule by the mass means participation in the social process. Whoever controls those processes controls society. All the people must participate if we are to have a real democracy.

Miss Gladys F. Zajic Married In Edmonton

In a late afternoon ceremony in the chapel of Metropolitan United Church Tuesday, Miss Gladys Zajic of Wainwright, daughter of Mr. and Mrs. Frank Zajic of Edgerton, became the bride of Mr. Walter Ellwood Fletcher, of Montreal, son of Mr. and Mrs. W. T. Fletcher, of Waltham, Que. Rev. R. McElroy Thompson performed the ceremony in a setting of vari-colored summer blossoms.

Given in marriage by her father, the bride wore a floor-length gown made with a full net skirt and lace bodice. Elbow-length white lace mittens complemented the short sleeves of the gown, and her floor-length veil was held in place by a headpiece of summer flowers. She carried an arm bouquet of flowers in blending tones and wore, as her only jewelry, a single strand of pearls, a gift of the groom.

Mrs. Geneva Dreyer, sister of the bride, attended as matron of honor, and Miss Grace Fletcher, the groom's sister, as bridesmaid. They were gowned in pink organza and blue organza, respectively, with which they were matching calots trimmed in veiling. They each carried a colonial bouquet of summer flowers.

Best man was Mr. Howard Zajic and the usher was Mr. Chester Zajic, both of Edgerton. Mrs. J. V. Dadds played the wedding music and Miss Bernice Fletcher sang "Beatus" during the signing of the register.

For her daughter's wedding, Mrs. Zajic wore a flowered tulle dress with white accessories to contrast and a yellow carnation corsage. After the ceremony a reception was held at the Corona hotel, where the bride's table was centred with a wedding cake flanked by summer bouquets.

Toast to the bride was proposed by Mr. A. F. Dreyer. The newlyweds left on a wedding trip to Jasper, Banff and points west, and later will make their home in Montreal. They are travelling the bride wore a white jersey dress, hopped with a beige coat and white accessories.

Out-of-town guests were Misses Bernice and Grace Fletcher both of Ottawa.

Former Wain. Boy Wed In Calgary A.Y.P.A. Fete Member On Leaving

In the chapel of the Pro Cathedral Calgary, the marriage of Miss Alice Taylor, R.N., only daughter of Mr. and Mrs. H. Taylor of Haldirk and Sidney Fuller, youngest son of Mr. and Mrs. J. Fuller of Drumheller, was performed before an altar banked with spring flowers, by Rev. Dean Smythe of Calgary.

The bride was given in marriage by her father and wore a gown of ice blue with white tulle and carried a bouquet of spring flowers.

The matron of honor was Mrs. Jack McLean who wore a pink dress with white cap. Mr. Jack McLean was best man. A reception was held in the west room of the Palliser Hotel, which was decorated by sweet peas and gladioli. There were fifty guests present.

The bride's mother wore a red dress with white tulle and carried a bouquet of pale blue. The toast to the bride was proposed by Mr. J. Fuller, brother of the groom.

The newlyweds left on a honeymoon trip to Banff, Vancouver and Victoria and will reside in Calgary on their return.

Out-of-town guests were from Edmonton, Haldirk, Three Hills and Drumheller.

Wain. Deanery Meeting Held Tuesday Last

The Deanery meeting was opened with a corporate communion at 12 o'clock noon in the Anglican church. The celebrant was Rev. F. Smith assisted by Rev. Orme of Toileford and Rev. Harris of Edmonton, also Rev. Ellway of Edgerton. This was followed by a luncheon at the Wainwright Hotel at which sixty guests sat down.

The afternoon session opened at 2:30 p.m. with a hymn and prayer. The Deanery President, Mrs. Bardeau of Toileford was in the chair. The address of welcome was given by Mrs. Geo. Arkwright of Wainwright, the reply by Mrs. Robinson of Toileford. Reports of the years work were read from Wainwright, Edgerton, Heath, Irma, Battle Heights, Viking, Redox and Toileford branches, all showing much activity and progress.

The following Diocesan officers from Edmonton spoke on different branches of W.A.W. work. Mr. De La Roque, Mrs. Tackaberry, Mrs. Cragie and Mrs. Wolfe.

Afternoon tea was served to over seventy W.A.W. members clergy and friends.

The election of officers for the ensuing year was held and were: President, Mrs. Barden, Toileford; Vice-President, Mrs. Kingston of Edgerton and Secretary Treasurer, Miss Led's Baptiste, Toileford. The sessions closed with Evening Service in the church.

St. Johns Ambulance

Congratulations are extended to those who were successful in their examinations for First Aid. The following names appear alphabetically: Abernethy, Enid; Elbern, Phyllis; Iverson, Clayton; Iverson, Alice; Iverson, Mrs. S. Lednic, Robert; Madill, Clarence; McLeod, Lorne; Peterson, John; Stevenson, Frank; Stevenson, Mrs. J. Thompson, James. The certificates may be received from Mrs. F. E. McLeod, secretary.

Last year 60,000 furnaces were manufactured in Canada.

GERALD

A pleasant picnic was held at Gerald school on Friday afternoon, when the children and their parents gathered there to play ball, run races, have peanut scrambles - and other amusements. A bountiful picnic supper was enjoyed by all. Miss E. MacDonald will soon be leaving to attend summer school in Edmonton.

Miss Lucille Deyell was writing for grade IX examinations this last week. Mr. Hans Sorenson returned on Thursday after completing his studies in Calgary. Mr. M. Moen accompanied him.

SSHEEPSKIN FLATS

The children had a wonderful time at the joint picnic "Gilt Edge, White Cloud, Mascot and the Flats" held in the Park grounds. They ended up with a very successful dance at night. Mr. Hans Sorenson was busy last week doing some summer following for Mr. Jones Myer.

Mr. Vern Templeton is busy summerfollowing the old Charlie Mallard farm.

The school teacher Miss Danks has returned home for the holidays.

PELICAN

(Too late for last week)
Sorry for the error last week. Mike Bellik now has a good supply of soft water at 320 feet. Wilfred has gone to Chaurvint until the rest of the pipe comes so he can complete the well.

On Tuesday last the Rainbow Club attended the UFWA Summer Conference at Spencers. Ruth Murray (director) conducted the Conference. Lena Bellik sang a song, and Beth Bellik was elected as conference secretary-treasurer for next year. Mrs. O. Greibek assisted with the fine handicraft display.

Some of the natives attended the Edmonton sports on Wednesday afternoon and evening.
On Saturday, Farmers Holiday, there was a good turn-out at Clear Lake. A very enjoyable day was spent in ball games, races, horseback, visiting and even bathing, topped off with a big picnic supper at 6 o'clock and a couple more ball games.

SEEDTIME AND HARVEST

DR. F. J. GREANEY
Line Elevator, Farm Service, Wainwright, Alberta

Research on Weed Control
It has been reliably estimated that the direct monetary loss from weeds in Canada is not less than \$200,000,000 a year. And this is not all. Year after year weeds continue to rob this country of the very soil resources which it is our responsibility and desire to protect and conserve.

Weed Research. The results of controlled experiments and the records of practical experience in this country leave no doubt that, as a source of loss to farmers, weeds rank in importance with plant diseases and insect pests. Yes, what do we find? We have built up large and efficient organizations in Canada to deal with problems relating to the ravages of plant diseases and insect pests; while, with few exceptions, we still consider weeds the incidental responsibility of a handful of botanists, agronomists, and other agricultural scientists. This is not good enough.

Our weed problems are enormous, and many of them can only be solved by a well-organized and properly directed program of research. In no field of agricultural research is there today a greater need for an organized national effort than in weed control. Weed control is, in fact, a national problem calling for national effort.

Research Assistance. Realizing the great need in Western Canada for more research on weeds and their control, the Line Elevator Companies sponsoring this Department recently made available to the Division of Plant Science, University of Manitoba, the sum of \$1,000.00 for weed research.

This grant will be used in 1947 to investigate certain special problems in the field of selective chemical weed control. We are convinced that the results of research on weed control will bring immense financial benefits to the farmers of Western Canada, and through them, to the whole community.

TAN AND FRECKLES

Artificial measures for hastening fading of tan and freckles are unwise and may be hazardous according to health experts.

There is no safe way of removing them prematurely, because they consist of colouring matter, or pigment, which forms a part of the deeper layers of the skin. Only time can erase them, as nature takes its course.

If you have had a becoming tan for the summer beach, you mustn't expect to show a creamy white skin at the first dance in the Fall, say the authorities.

ALBERTA MOTOR ASSOCIATION

A.M.A. ISSUES 1946 ALASKA ROAD BOOKLETS

New Alaska highway booklets giving up-to-date information and points of interest on the northern route are being issued by the Alberta Motor Association.

Well illustrated in attractive two colors, 10,000 copies of these booklets are in course of distribution and it is anticipated that the heavy demand will call for a second issue of at least the original number.

The booklets are well illustrated with scenes along the highway from Dawson Creek to Whitehorse including bridges and other structural attractions.

They contain road maps and a wealth of information as to highway regulations, accommodations and services. Travel offices report that already there is a heavy demand for the booklets which are distributed free.

The booklets are available at A.M.A. and Chamber of Commerce offices, and travel and transportation offices.

Thousands of copies will be sent to travel agencies in the U.S. where there is a heavy volume of applications for information concerning the Alaska highway and facilities for tourist travel.

Recruit Only 40 Air Force Officers

A far cry from the heavy wartime training of airmen, Air Force headquarters announced that the first intake of new potential airmen officers for the peacetime force will start this summer, and only about 40 future permanent force officers are to be accepted.

These will be drawn mainly from university or high school graduates who have previous R.C.A.F. service, or from serving airmen. The first group of 20 will enter in July and will be limited to holders of science degrees, and applicants must be over 18 and not more than 26.

The second group, to enter in September, will include civilians and serving airmen with senior matriculation who must be 18 but not over 22. All applicants for both groups must be unmarried.

In a statement, Defence Minister Claxton regretted "that airmen officers in the vast pool of trained airmen, thousands of whom have operational experience, cannot be selected to continue to fly."

"Continued dependence upon this group of men, however, would one day find its entire list of flying personnel too old for operational duties. Flying training under peacetime plans covers two years, and new entrants must be young enough to have a maximum period of operational usefulness ahead of them after qualifying."

Vets To Get Full Building Priority

Reconstruction Minister Howe told the House of Commons that arrangements which he had announced earlier had now been completed to give full building priority to veterans who want to start building homes.

Until now the priority was restricted to those who had homes 50 per cent completed in order to steer building materials to completion of projects.

Veterans may not get priorities by showing evidence that they have land and intend to build. They must detail building materials required and priorities will be given only for the minimum quantities required to complete a "reasonable type and size of home."

The priorities will be confined to veterans building single homes for their own occupancy and not covered by the small holdings plan of the Veterans' Land Act. Other machinery has been set up for priorities under group schemes.

HAY FEVER HINT

If you suffer from hay-fever or so-called "rose colds" it may be wise for you to avoid swimming during seasons when you are most subject to such attacks. Doctors believe that those suffering severe attacks of hay fever should stay out of the water altogether, to escape complications arising from bronchitis, inflammation of the nose and throat.

TOO MUCH SUN

Like all good things, the sun can be harmful if taken too generously. Excessive exposure to sunlight can cause sunstroke, indicated by high fever. Those so stricken should be kept cool. There is also a condition known as heat exhaustion, which is marked by paleness and a feeling of coldness and shakiness. The calls for care in making and keeping the sufferer warm.

In cases of both sunstroke or heat exhaustion, or when either is suspected, medical attention should be sought at once.

They were entertaining the vicar to lunch, and the guest remarked to the small boy of the house: "Don't you ever say prayers before your meals, my child?"

"Oh, no," said the child. "Dad says our cook's pretty reliable."

Consult the Wainwright Star for all your printing requirements.

BWIM SATELX

"This summer, when you go bathing or swimming, don't choose an isolated spot, where help won't be available if you should get into difficulties. And, the medical authorities remind Canadian, don't swim when over-tired, and don't go in the water for at least an hour after a meal."

Summer Time Is Boating Time

We now handle the famous

"SEBEE" FLYWOOD BOATS

This is a strong, durable boat that will give years of pleasure and is built to handle a heavy duty outboard motor.

Let us show this to you and once seen you'll be convinced No obligation.

Regarding Hail Insurance! Ask Yourself These Questions!

- (1) Is this a full cover policy or do I have to stand the loss of 25% of my crop and pay the premium as well?
- (2) Are my crops protected right up until October 1st or may I lose my crop by hail after noon September 15th and still lose my premium?
- (3) If my crop is in the swath or stood either before or after September 15th and is destroyed by hail will I be paid under my policy or will I lose both my crop and my premium?
- (4) Do I have to pay my premium in cash and if I don't how much extra is it for payment in the fall?
- (5) Can I be assured of receiving payment of my loss in full?

FOR THE ALBERTA HAIL INSURANCE BOARD I CAN ASSURE YOU OF THE VERY BEST PROTECTION AND ANSWER THESE QUESTIONS BY SAYING:

- (1) Wherever you live you can buy a full cover policy and our published rates are for this type of policy. If you want a deductible clause of 10 or 20% we will write it at a considerable reduction but we do not believe that with a 25% deductible clause you have worth-while protection.
- (2) Your crops are protected right up to October 1st without any extra charge.
- (3) Even after your crop has been out and is in the swath or stood you are still protected at no extra cost. Protection is available from the time the crop is in the ground in the Spring until it is in the bin in the Fall provided it is not after September 30th.
- (4) The rates quoted by the Board are for payment prior to November 1st and if you pay cash and do not file a claim you will receive a refund of at least 5% of your premium - in 1946 it was 7%.
- (5) You are absolutely assured in 1947 of receiving payment of your loss in full regardless of how heavy the loss is. The Reserves of the Board and its reinsurance program make sure of this.

The Alberta Hail Insurance Board is set up for your benefit as well as that of the other farmers of the Province and the above are only some of the ways it is doing this. Call and let me explain why I believe you should insure your crops against hail and why you should insure with the Board - its improvements in adjusting procedure, its payment of loss in excess of 90% as 100%, its co-operative features and the fact that with the continued support of you and the other thousands of farmers it is rapidly getting into a position where its plan of refund on premiums may be extended and made applicable to more and more of its policy holders thereby providing much cheaper protection.

 PUBLISHED EVERY WEDNESDAY MORNING
 at the Star Building, Main Street, Wainwright, Alberta.

WAINWRIGHT, WEDNESDAY JULY 2nd, 1947

AN APOLOGY

July 1st, Dominion Day 1947, would have to fall on a Tuesday this year, and as this is the regular publishing day of The Star, the Editor and staff were faced with a problem. As this day is proclaimed a national holiday by the government and the day itself being one of entertainment, we of The Star had only one choice to make, that was publish one day earlier this week.

By so doing there will be a certain amount of news that will not reach us in time for this issue, but it will receive priority in next weeks issue. If our readers will please overlook the fact that The Star might not be up to standard this issue we would appreciate it very much.

—The Editor

THE ALLEY PROBLEM

The condition of the alleys within the town limits have been a problem for some time now and as pointed out by one of our readers in last weeks issue of The Star, under the "Letter to the Editor" column, it appears that certain alley ways in Wainwright are a menace to health.

There appears to be laxity on someones part somewhere. Whether it be the home owner, the town man, the councilors or the medical health officer, we are not prepared to say. One thing apparent is that in most cases of complaint a little of each is the common cause.

No one can deny that the sanitation and waste removal system in this town is not of the 1947 variety. The one basic fault lies in the fact that we are trying to get along the best we can with 1935 equipment, money-spending and manpower. It can't possibly work as long as the population in Wainwright continues to increase. For the first instance in 1935 the population was nearly 500 people less than it is today. That factor alone entering into the picture tends to show where the trouble is. Also the trouble will not correct itself. The population of Wainwright is on the increase with new families moving to town every week. The new houses being erected at the present time only prove that Wainwright is going ahead.

This situation of unsanitary lanes will correct itself to a large degree only when water and sewerage is installed. That date though is anyone's guess. At the present time the cost of installation is the delaying factor. Whether this increased cost is enough to warrant the delay is doubtful, especially when peoples health is at stake.

Dirty and unsanitary lanes are the best possible breeding places for insects and flies in particular. The filth and germs are carried for many blocks from one untidy refuse pile.

Just what the immediate remedy will be is hard to say. It is very urgent that some steps be taken to correct the situation, but until they are taken conditions will not improve. Action is what is needed and the sooner the better.

JULY 1st WITH A REAL SIGNIFICANCE

July 1st, 1947 was celebrated this year as in many former years, but we wonder, will anyone stop to think of the special significance that July 1st held in store for the first time since Confederation.

During the years past Canada has celebrated the day with the meaning of confederation as it applied only to Canada as a part or partner in the British Commonwealth of Nations. Since January 1st of this year that has all been changed. On that date Canada as an independent country or nation came into her own. The status of Canadian was recognized throughout the world with a meaning of pertaining to Canada. Her people were free to proclaim their citizenship as Canadians without having to distinguish themselves with a further definition of French-Canadian or German-Canadian or some other prefix to their nationality. This is progress that has taken a long period to develop. It is also a progress that should be cherished by every last one of us. If we stop to think how much effort has been placed into this project during the past 50 or 60 years, the term of Canadian takes on a richer, fuller meaning.

There are advocates of different theories in this broad country and living in a free country as we do, these advocates make their cries heard throughout the Dominion as to how we should join other countries or become an independent republic and other like nonsense. The people who advocate these changes would never be satisfied with any form of system, no matter how our national life was formed. They are usually disgruntled or are ready to join the band-wagon which will mean freer living or easier jobs for themselves. No, Canada is one of the finest countries in the world. She has many shortcomings which tend to make one a little disgruntled once in a while, but all things being considered we live in a "Garden of Eden" compared with the other people who go to make the earth's population.

July 1st holds special significance this year in that we celebrate the status of Canadian, a free member of the world. Canada has taken her place in the worlds society, a place of prominence that she will never lose.

Although in most parts of the country it did not look as if summer would ever arrive this year it has come finally, of course, and has brought with it the first of the garden fruits and vegetables. When we think of summer desserts, we naturally think of fruits. This is the time of year when one feels able to really relax a little where desserts are concerned and serve as much fruit as possible, either fresh or made into light, hot-weather appealing puddings, short cakes and so on. A desert that can be prepared in a jiffy is most certainly what the busy housewife prefers at any time of the year but this is especially so in summer for no one wants to spend hours in the kitchen when the outdoors are temptingly calling. Many desserts which give the impression of having required skill and time can be made practically at a moment's notice if some of the preparation has been taken care of in advance, say on a rainy day or when you feel specially energetic and in a mood to do a lot of work.

One thing that the home-economists of the Consumer Section, Dominion Department of Agriculture, recommend as a good time saver, is a large quantity batch of baking powder biscuit mix. This mix stores well if kept in a cool place; either a covered bowl or a glass jar, which takes up less space, may be used for the purpose. The mix contains all the ingredients but the liquid, which is added when you want to make up the biscuits. Instead of making the regular tea biscuits, this mixture may be used for short cake, roly-poly, deep fruit pie.

Quantity Tea Biscuit Mix
 6 cups sifted all-purpose flour OR
 9 cups pastry flour
 6 tablespoons baking powder
 1 1/2 tablespoons salt
 1 cup lard or other shortening
 Sift dry ingredients together three times. Cut in fat with two knives or a pastry blender until the mixture resembles fine bread crumbs. Store in covered container in the refrigerator or other cool place.

For following recipes, allow 2-3 cups of sweet milk or water (at room temperature) for two cups of biscuit mix. Stir well. Toss onto a floured board and knead lightly for a few seconds.

Fruit Roly-Poly—roll lightly on a floured board to 1/3 inch thickness. Combine finely cut fruit with sugar and a small amount of flour. Spread the mixture or rolled out dough. Roll like a jelly roll, place in a greased loaf pan and bake in a hot oven, 425°F. for 15 minutes.

Topping for Deep Fruit Pie—Leave whole or cut with biscuit cutter and place over fruit sweetened to taste and bake in a hot oven, 400°F. for 35 to 40 minutes or until topping is cooked.

Shortcake Base—Pat or roll out 1/4 to 1/2 inch thick, cut with cookie cutter or leave whole, either in a square or a round shape. Bake on an ungreased baking sheet in a hot oven, 400°F. for 12 to 15 minutes.

Glamour Shortcake
 Split baked biscuit, spread with crushed fruit, put together and ice with a fluffy meringue.
Fluffy Meringue
 2 egg whites
 Dash of salt
 2 tablespoons sugar
 Add salt to egg whites and beat until stiff but not dry. Gradually beat in the sugar. Top shortcake with meringue and bake in a moderately slow oven, 225°F., until meringue is delicately browned. Serve with additional fruit.

Hot Milk Sponge Cake
 3 eggs
 1/2 cup white sugar
 1 teaspoon vanilla
 1 cup pastry flour
 OR 1 cup less 2 tablespoons all-purpose flour
 1 1/2 teaspoons baking powder
 1/4 teaspoon salt
 1/2 cup scalded milk
 1 tablespoon butter
 Beat the eggs until very light, adding the sugar gradually, then add the vanilla. Sift in dry ingredients. Scald the milk in a double boiler, add the butter. Stir until butter is melted and add to first mixture. Beat with a dough beater (this batter is very thin). Pour into a 7 x 7 inch pan, and bake in a slow oven (325°F.) for 45 minutes or until done. Top with crushed berries and whipped cream or serve with fresh fruit.

A.M.A. WILL SURVEY SERVICE EXTENSION

Extension of service will be one of the needs to be given immediate attention by a special committee of the Alberta Motor Association. This was decided at a recent meeting of provincial directors at Calgary.

While the A.M.A. now provides a variety of services including emergency road service up to certain limits legal and other services, there are various suggestions for extending present ones and adopting new ones that require study and consideration. The special committee is to report on proposed widening of services for the 35,000 members of the association.

Interested in the promoting of tourist traffic and providing of services, the Calgary branch of the A.M.A. is operating a tourist office at Banff again this year. A similar office to open in Jasper park is under consideration by the Edmonton branch.

Visitors from the U.S. have found such motor club offices of inestimable value to them while seeking data in connection with their motor holidays.

MORE VEHICLES ON ALBERTA ROADS

Number of licenses issued so far this year for passenger cars, motorcycles, dealers' cars and to drivers all have increased substantially over the number issued in this period last year, provincial government officials said Tuesday.

Number of passenger car licenses issued to June 15 totalled 90,820, an increase of 4,779 over the 86,041 issued at this time last year, it was stated. The increase was attributed mainly to an increased number of new cars on the road.

Number of licensed motorcycles so far this year has reached 976 compared to 700 at this time last year, an increase of 276. Number of licenses issued to dealers has increased 266, from 775 at this time last year to 1,040 at the present time.

The number of drivers also showed a marked upward trend. Number of licenses issued since April 1 has reached 148,500 compared to 140,800 at this time last year, an increase of 7,700.

PRUNING TOMATOES

The tomato is one of the most valuable of the vegetables, as it can be used in many forms and is an important source of vitamins. Tomatoes which ripen on the plant contain a higher vitamin content than those picked green and ripened indoors.

Since ripened fruit is desirable in as large quantities as possible the tomato plants should be pruned to a single stem and tied to stakes. This practice has proved best in North Eastern Saskatchewan in the production of early, larger and cleaner fruit with less disease injury and more convenient harvesting.

Stakes of wood one inch by two inches and five feet long are satisfactory. Where available, small stakes may be cut from the bush. These are driven into the ground to a depth of ten to twelve inches and a few inches from each plant. Less injury to the roots will result if the stakes are driven soon after planting. Tying the plant to the stake should be continued as the plant grows.

Pruning the plants to one stem consists of cutting or pinching out all side or lateral branches as soon as they appear.

During the growing season, the plants should be examined at least once a week, and all side branches or laterals should be removed. This removal of the laterals tends to throw all the vigor of the plant into the formation and production of fruit. Later in the season, after three or four of the flower clusters have set fruit, the top of the plant should be pinched off or cut just below the next cluster of flowers that appears above the clusters to be retained. Any leaf over-hanging a cluster of fruit may also be removed to allow the sun and air to speed the development and ripening of the fruit.

Varieties such as Bison and Furthest North are bush types and are not adapted to staking and pruning. This practice of pruning and staking tomatoes has been practiced on the Illustration Stations in North Eastern Saskatchewan for a number of years. In most instances it has resulted in ripe fruit being produced from ten days to two weeks earlier, in addition to giving larger fruit and a somewhat heavier yield.

on the number of truck licenses issued since the first of the license year. The estimate to June 15 was 35,000. During all of the 1946-47 license year, 45,000 truck licenses were issued. This figure is expected to be exceeded by the end of this year.

Announcement

We take pleasure in announcing that we have obtained the exclusive appointment as Wainwright and District representatives for—

"Tile-Tex Floor Tiles"

These tiles when properly laid will give years of hard wearing service and outlast any linoleum. They are easy to clean and are also sanitary. Ideal flooring for kitchen or bathrooms.

THAT INCOME TAX SAVING

It's MONEY IN THE BANK...

if you're Smart

NEXT pay-day your pay cheque will be bigger... because the reduction in your income tax will be effective.

Think of that increase as a raise in pay—as money in your pocket. Whether your income is \$2,000 or \$20,000, it's something extra to use in your own design for living.

For some people it's going to mean more money to spend—an easier time in personal financing. That's good for most of us.

But is that all? Not for the wise ones. Wise folk won't let all that money slip through their fingers... Some will save 10%—some 50%... and some will save it all.

Plan your finances now for 1947... figure out your tax saving and see that a good lump of this money

in your pocket is labelled "money in the bank".

For many people that's going to mean "money in My Bank"... where more than a million Canadians—sound citizens who know what saving means—do their personal financing.

You will be very welcome in this good company.

Something to show for it...

Don't just leave your income tax saving with the rest of what you have to lose track of it too easily.

If you're wise you'll open a special savings account for it and do a real dollar-building job. Call it your "Income Saving Account" and make it live up to its name.

Later, you'll be glad you did... you'll be able and ready to buy those things you want most.

It's an opportunity to start saving really systematically, and a Bank Savings account will help you. Open one at your nearest branch today.

FARMING NOTES

By Prov. Dept. of Agriculture

THE VALUE OF PROTEIN IN HOG FEEDING

It has been known for a long time that marked differences in protein content of cereal grains occur in crops grown in different parts of the province. Protein content of wheat has received considerable attention but comparatively little study has been given to the matter of protein differences in the feed grains.

An experiment at the University of Alberta reported on *Feeders' Day* by Drs. R. D. Sinclair and L. W. McElroy, was conducted with a view to learning something about the effect on hog feeding of the difference in protein content of feed grains. Selected groups of hogs were fed low, medium and high protein oats and barley with and without a protein mineral supplement.

Where no supplement was fed and the hogs had to rely entirely for their protein on the grain provided, rate of gain varied with the percentage of protein content. The higher the protein content of the grains the more rapid was the growth and the less feed was required. Costs of feeding were also reduced as the protein content of the grain increased. In every case however, the addition of a protein supplement to the ration proved beneficial, and there was sufficient evidence to show that even when feeding high protein grains supplements are still required for economy of production.

Drs. Sinclair and McElroy suggest that as a result of further experiment it may be possible to develop recommendations leading to more economical use of protein supplements. Until further information is available however, swine raisers are advised to continue feeding of supplements according to standard procedure.

EFFECT OF RAIN ON INSECT PESTS

Many Alberta farmers are wondering if the recent rains will have any effect on the reduction of insect damage. According to J. L. Hagihara, Supervisor of Pest Control for the Alberta Department of Agriculture, the rains to date have not been sufficient to make any appreciable difference.

Grasshopper population can be considerably reduced by prolonged June rains, but little grasshopper damage is expected this year. One report only of heavy grasshopper infestation has been received, and that came from a small section of the Peace River area.

Some cutworm and wireworm damage has been reported from Southern Alberta. Although ample moisture does assist crops to withstand the

activity of these pests, the amount of rain so far is not likely to produce any marked effect.

Mr. Hagihara says that as far as the wheat stem sawfly is concerned continued rainy weather during the egg laying period helps to reduce the number of eggs laid. Sawflies will not lay eggs until the crop is in the shot blade. Prolonged rains and cold weather after the wheat enters this stage have a retarding effect on egg laying. The fewer eggs laid the less will be the damage.

A heavy population of red-backed cutworms in some of the parkland areas may result in damage to clover crops (particularly alfalfa) sown last year. Where these insects are present damage should be showing within the next week or two. Where heavy damage to valuable crops is indicated it may be advisable to resort to the use of poison bait. Red-backed cutworm activity can be identified usually by the presence of cutworms just below the soil surface close to the stems of damaged plants. Advice on procedure can be obtained from District Agriculturalists or direct from the Field Crops Branch of the Alberta Department of Agriculture.

CHALLENGE TO DAIRYMEN

The recent announcement of the Federal Government which ended rationing on butter and evaporated milk and lifted ceiling prices on all dairy products provides a real challenge to the dairy industry. D. H. McCullum, Dairy Commissioner for the Alberta Department of Agriculture, advises that there is a tremendous demand on the domestic market for all dairy products. In addition, agreements have been completed with the United Kingdom which require that Canada export 125,000,000 pounds of cheese, 600,000 cases of evaporated milk and 8,000,000 pounds of skim-milk powder this year.

Prices in the principle Canadian markets have strengthened since this announcement, and the additional revenue from cream and milk will no doubt encourage producers to meet this demand.

Home Plumbing and Heating On Increase

Production of plumbing and heating equipment and supplies in Canada this year will be the greatest in history, according to the Canadian Institute of Plumbing and Heating.

"The industry is doing its utmost to provide the necessary heating and sanitary plumbing equipment for the new homes and industrial buildings now being erected under the vast construction program," an Institute statement said. "Barring unforeseen stoppages, the industry should turn out almost double the 1939 production."

Extent of the increase in industrial production is indicated by the plumbing and heating statistics just released by the Department of Reconstruction and Supply, he said. These show that about 75,000 furnaces will be made in Canada this year. This is 80% over the 1939 production and 47% over the pre-war peak. Last year about 60,000 furnaces were produced in the Dominion.

An average increase of 66% over the pre-war peak is expected in a wide range of plumbing and heating equipment including radiators, hot water storage tanks, furnaces, cast iron pipe fittings, steel pipes and fittings, and electric water heaters. Bathtubs, sinks, and wash basins are equally expanded.

Largest increase over pre-war production is expected in electric water heaters of which 67,000 units are anticipated, three times the 1939 production. Other very large increases are expected in cast iron radiators of which 8,500,000 square feet are anticipated, 70% over the pre-war peak of 1937, and in hot water tanks of which 125,000 are anticipated, 60% over the pre-war peak of 1939. Despite the vast increase in production, it is expected that there will still be shortages in many lines owing to the excessive demand by the present record building boom across the Dominion.

Here at last, after most elaborate and lengthy persuasion—for he is very shy—is Hoppy, that whimsical elf who entertains the tales told by CBC's Sleepytime storyteller on Fridays at 6:45 p.m. The photographer caught him in an informal moment on top of a CBC microphone. The Storyteller is Stan Chapman of Camphilldown, N.B., whose conversations with Hoppy have been amusing Canadian children from one end to the other of CBC's vast network.

SURVEY LEVEL-OF-LIVING OF FARM FAMILIES

A level-of-living study of representative farm families in Saskatchewan and Alberta is now being conducted by the Universities of these provinces. The project is directed by the Economic Division of the Dominion Department of Agriculture with whom the universities are co-operating.

The survey appraises the cost of living, home comforts, household conveniences and income of families both in established and pioneer farming areas. A study of their dietary habits and the place of family allowance payments in the farm family budget are significant features of the project.

The areas covered by the survey are the Cory-Aquith-Langham area surrounding Saskatoon; six northern pioneer areas of Saskatchewan: Peaceville-Lintlaw, Hopedale-Cardigan, Assiniboia-Carleton Place, Meadow Lake, Loon Lake, and Goodwell-Pierceland, the Red Deer-Wetaskiwin area of central Alberta.

A concise report on the results of a similar but less extensive survey made in 1945-46 has been published and is available on request from the Dominion Department of Agriculture, Ottawa. The same farm families called on in this earlier survey are now being revisited to learn of changes in their level-of-living, and the factors causing these changes.

NEWS & VIEWS OF TOWN AND DISTRICT

BORN—To Mr. and Mrs. L. Roy of Heath at the Wainwright municipal hospital on June 26th, a girl.

BORN—To Mr. and Mrs. F. Knudsen of Hingham at the Wainwright municipal hospital on June 26th, a boy.

BORN—To Mr. and Mrs. R. E. Congdon of Irma at the Wainwright municipal hospital on June 26th, a girl.

Mr. and Mrs. Bayham left for Portland, Oreg., U.S.A. on a holiday.

Mr. J. Robinson spent a few days in the city last week accompanied by his little granddaughter Barbara who will continue on to the coast to make her home with her mother, Mrs. Murray White. Miss Velma Clark who is vacationing at the coast will accompany her.

Misses Florence and Jessie Stinet and Julia Cartier left Friday morning for Brooks where Florence has accepted a position as bookkeeper and typist. Good luck girls.

Mrs. D. Bond was in Edmonton over the week-end visiting with her mother.

Mrs. E. F. Johnson's baby daughter Kerry left on Saturday for Montreal after a holiday spent with her parents Mr. and Mrs. W. Harley in town.

After an enjoyable holiday spent motoring to the coast and points west Mr. and Mrs. D. Pawley have returned home.

Guests at the home of Mr. and Mrs. T. Lane over the long week-end were Mr. and Mrs. B. Graham and Mr. and Mrs. W. Elliott and son Bobby of Edmonton. Mrs. Elliott and Mrs. Graham arrived on Wednesday to be present for their parents wedding anniversary.

Miss Shirley McKenna will assist in the store during the absence of Mr. and Mrs. F. E. McLeod who are leaving this week on their summer vacation.

Mr. Roy Carr much improved after spending a short time in the local hospital last week where he underwent a minor operation on his knee.

Mr. and Mrs. L. Hughes of Holden are spending the long week-end with Mrs. Hughes' parents, Mr. and Mrs. E. Dahl in town.

Mrs. J. Toulme and daughter Mae spent a few days in the city last week.

Mrs. C. Gundry-White is enjoying a visit from her mother, Mrs. W. Simpson, who is here from Jasper.

Mr. and Mrs. Jack Alderman have returned home from their vacation spent at Victoria, B.C.

Mr. and Mrs. W. Gano who are visiting here from Marmora, Ont., spent a few days in Edmonton last week accompanied by Mrs. J. Robinson.

REV. H. ROSENKE, Pastor

Mr. and Mrs. T. Shaw have left on a trip to Calgary, Banff and Jasper and while there will visit with their son.

Miss Mona Ganderon and Mr. Dinny Ganderon of Edmonton arrived on Saturday to spend the long holiday with their parents in town.

Word has been received that Mr. Lionel McLeod has been admitted to first year medicine at the University of Alberta. Congratulations, Lionel!

Mr. and Mrs. Fred Pawling and family arrived last week from Winnipeg to visit with Mrs. J. Pawling in town.

After a residence of over thirty years on their farm in the Green-shield district, Mr. and Mrs. R. H. Valieu recently sold out to Mr. Donald Holmes of Marwayne, Alberta, and left on Saturday night's train for an extended holiday with relatives and friends in the East.

We are pleased to report Mr. Gilbert Middlemass has returned home from a prolonged stay in the University hospital, Edmonton, and hope to see him much improved in health.

Mr. Mike Haynes was taken suddenly ill in town on Saturday and is a patient in the local hospital.

Miss Annabelle Carrell spent the holiday week-end in the city visiting with her brother and family, Mr. and Mrs. Quinton Carrell.

After being confined to the hospital for a few days with an injured knee, Mr. Lorne Mitchell has now returned home.

Mr. and Mrs. Oregthon Greer were visitors to Edmonton last Saturday.

Mr. Tom Cardell of Calgary is enjoying a holiday with parents, Mr. and Mrs. M. G. Cardell in town.

Mrs. Oric Elder of Saskatoon, a former Wainwright resident, spent a few days last week visiting Mrs. L. Stuart and renewing acquaintances in town.

Mrs. Marla Ganderon and small son who arrived from England some time ago and have been guests at the home of her uncle, Mr. and Mrs. E. Ganderon, left on Sunday night for the East where she plans to make her home.

Mr. and Mrs. Carter spent Sunday with friends in Irma.

Rev. W. A. Whelan delivered his farewell service on Sunday night to the congregation at the United church and will leave this week with Mrs. Whelan to make their future home in Edmonton.

Mrs. J. Whittle arrived home from England recently after an extended holiday with relatives there.

Mr. H. C. Wallace and son Dr. Beatty Wallace returned last week from a motor trip to Jasper and Banff. On their return Beatty left for Chicago where he has been appointed a Fellow in Pathology at Northwestern University.

Mr. and Mrs. Walter E. Fletcher (nee Gladys Zajic) who were married in Edmonton last week spent a few days in town enroute east to Montreal where they plan to reside.

Beekeepers Hear Provincial Apiarist

Beekeepers of Wainwright and District heard a very welcome and enlightening address given by Mr. Le Maistre, the Provincial Apiarist, who attended a meeting of the Wainwright and District Beekeepers Association on Saturday afternoon last.

Mr. Le Maistre happened to be in the Irma district on beekeeping business so on the invitation of Mr. Robbles, District Apiarist, he came to Wainwright to address this meeting.

The meeting was held at the home of Mr. W. MacBeth, and Mr. Le Maistre gave a demonstration of the correct handling of bees and the opening of hives. After the demonstration the members present spent a pleasant afternoon asking questions and having a round table discussion in general.

Hard Ball Draws

For July 1st

The following is a list of hard ball schedules as the draw was made up. By the looks of the table, it would appear that Wainwright is in for some good ball exhibition, with six of the best teams entered for some time. The first game is scheduled to get under way at 10:00 a.m. (D.S.T.) and a new game every two hours until the finals at 7:00 p.m.

The draw as it appears:
10:00—Wainwright vs. Heatherbell
12:00—Rubeone vs. Car
2:00—Chauvin vs. Edgerton
4:00—Two of the three above winners
7:00—Finals, where the winner of the 4 o'clock game meets the third team winner.

It is planned to put the names of the winning teams into a hat and the one that is drawn will automatically go to the finals and not have to play the 4 o'clock game, but will receive a by.

Tax Notices In Mail This Week

Those little slips that no one ever wants, the Tax Notices are again in the mail for all the ratepayers, whether it be within the town or in the municipality.

The town notices are a buff color and the M.D.'s are green this year. The tax rate for the town has remained unchanged at 56 mills, and the municipality has not changed the tax rate very much. The M.D. tax rate is based on different things that a set mill rate can not be stated. It depends where the ratepayers live and according to which school division he pays taxes to, as to the amount of taxes he is entitled to pay. The discount of 5% remains unchanged from former years, which should entice prompt payment.

Mr. C. Wilburham pointed out to the star, that as far as M.D. taxes were concerned and credits that were given, either through payments or by pay sheets since June 1st, would not appear on the tax notice but would be adjusted at the time of tax payment.

Mrs. J. Fairburn Honored At Farewell

The ladies of the United Church W.A. met at the home of Mrs. Wright on Friday of last week to honor Mrs. J. Fairburn who is leaving to make her home in Killam.

A social afternoon was enjoyed by all present and a delicious lunch was served by the hostess after which Mrs. M. Symes, President of the W.A. presented the guest of honor with a parting gift of remembrance from the members and best wishes for much happiness in her new home.

Staggs—"Death's Old Sweet Song"
Adams—"Banner by the Wayside"
De Voto—"Mountain Time"
Have you seen our exchange shelf for pocket editions—50 per book. Library will be closed Wednesdays during July and August.

WATER FOR THIRST

People doing an average amount of work in summer drink about a gallon of water a day. Those in strenuous occupations may drink as much as two gallons. Since perspiration robs the body of salt as well as water, medical science suggests lots of salty food, as well as drinking a little water at frequent intervals.

CLEANING FOODS

Among the known causes of tooth decay, are sweet, sticky foods, left in with a person's nutritional requirements to ferment around the teeth. Dental experts remind Canadians that mouth raw fruit will do the trick, leaving cleanliness is important for general, as well as oral, health.

After sticky foods, they suggest a salad or perhaps a stalk of celery, to clean out the mouth. Also, if it is messy, are sweet, sticky foods, left in with a person's nutritional requirements to ferment around the teeth. Dental experts remind Canadians that mouth raw fruit will do the trick, leaving cleanliness is important for general, as well as oral, health.
